

To the House Judiciary Committee:

On behalf of the 115 members of the South Haven American Association of University Women (AAUW), we respectfully urge you to vote YES to report HJR GG out of committee to the full House.

A basic human right is equal treatment under the law. We support adding "sex" to Michigan's equal protection clause in our State constitution. This is a positive move that legislators from both parties should readily agree upon to ensure citizens are treated fairly.
